To Whom It May Concern:

West Branch Inc. has done quality general contracting work for us during each of the my seven years at the Adirondack Trust Company. The added value of working with Darren Tracy is that you get the experience and knowledge of a Professional Engineer as part of the package to analyze the problem and develop a cost effective solution. I have consulted with Darren on numerous issues ranging from concrete & masonry repairs to shifting marble parapet stones to drainage problems and his suggestions and ideas have always proved invaluable. I would not hesitate to recommend his company to anyone looking for quality and professionalism.

Sincerely,

George T. Hathaway
